ELECTRONIC COMPONENTS

Indulge your innovative spirit and electrify your projects with Automaxx electronic components — where precision meets creativity. These meticulously engineered components are the backbone of cutting-edge technology, designed for the discerning inventor and the passionate tinkerer alike. Each piece is crafted to elevate your electronic designs, delivering unparalleled performance and reliability. From circuit boards to resistors, conduits to connectors, our diverse catalog ensures that every detail of your project is executed with precision. Transform your ideas into reality and experience the extraordinary with Automaxx's unparalleled quality, as your vision comes to life with our industry-leading components.

Elevate your innovation; choose Automaxx, and stand at the forefront of tomorrow's technology today.

1.5MM SERIES 1 PIN AMP SUPERSEAL WATERPROOF FEMALE WITH WIRE AUTOMOTIVE CONNECTOR

Unleash the unparalleled reliability and precision of the 1.5mm Series 1-6 Pin AMP Superseal Waterproof Female Wire to Wire Automotive Connector. Crafted for those who demand excellence, this connector is your go-to solution for secure and enduring connections in the most demanding automotive environments. Engineered to withstand the elements, its waterproof design ensures flawless performance whether you're navigating the open road or the toughest terrain. With a meticulous build that promises not only durability but also ease of use, each connector ensures a seamless fit that safeguards against disruptions and ensures peace of mind. Step into the future of connectivity with a product that sets the benchmark for innovation and trust in the automotive industry.

60A 

DALY BMS LI-ION NMC 14S 51V 60A WATERPROOF BATTERY MANAGEMENT SYSTEM

Introducing the DALY BMS Li-ion NMC 14S 51V 60A Waterproof Battery Management System - the epitome of innovation for safeguarding your power needs. This state-of-the-art BMS Protection Board is your battery's trustworthy guardian, meticulously designed to enhance longevity and optimize performance. Dive into the realm of unparalleled energy efficiency with its advanced technology, providing steadfast protection against overcharge, over-discharge, and short circuits. Enveloped in a robust waterproof shell, it promises unwavering reliability in all environmental conditions, from steaming hot days to torrential downpours. Perfect for electric vehicles, solar energy systems, or any high-performance application, this BMS is engineered for those who refuse to compromise on power or precision. Stand out from the competition with a battery management system that guarantees peace of mind for every journey. Choose DALY, where excellence meets endurance.

SUPERCAPACITOR 500F 2.7V HI CAPACITY HIGH QUALITY 2 PC ELDC

The supercapacitor, with a capacitance range of 500 to 3000 farads, offers exceptional energy storage capabilities for a variety of applications. Its high energy density and rapid charge/discharge cycles make it ideal for powering devices that require quick bursts of energy, such as electric vehicles, renewable energy systems, and backup power solutions. Designed for durability and efficiency, this super capacitor ensures reliable performance in demanding environments, making it a perfect choice for both industrial and consumer electronics.

SMD RESISTOR KIT COMBO SAMPLE BOOK BY AUTOMAXX

Unlock the ultimate in precision and convenience with the SMD Resistor Kit Combo Sample Book by Automaxx. Envision a collection of meticulously curated resistors at your fingertips, crafted to elevate your electronic projects to new heights. Each resistor is a masterpiece of engineering, housed in an elegantly designed sample book that speaks to both your expertise and taste for quality. Say goodbye to clutter and disorganization as you embrace the streamlined efficiency and easy accessibility of our premium kit. Ideal for both keen hobbyists and seasoned professionals, the SMD Resistor Kit offers a comprehensive assortment tailored to your every need, ensuring you're equipped for every challenge. DALY BMS LI-ION NMC 13S 48V 40A WATERPROOF BATTERY MANAGEMENT SYSTEM

Introducing the DALY BMS Li-ion NMC 13S 48V 40A Waterproof Battery Management System, the ultimate safeguard for your energy storage solutions. Engineered to perfection, this BMS Protection Board transcends the ordinary, enveloping your valuable battery arrays in an unrivaled embrace of safety and efficiency. Designed for the discerning individual who values both power and precision, its advanced NMC technology ensures robust performance, maximizing the lifespan and reliability of your batteries. With a formidable current rating of 40A, this board seamlessly balances high capacity with intuitive control, offering unyielding protection against overcharging, discharging, and thermal overload. Its waterproof design champions resilience in even the most challenging environments, making it the ideal partner for outdoor installations or variable climatic conditions. Elevate your energy storage experience—invest in unparalleled security and peace of mind with the DALY Battery Management System. Your search for enduring energy management ends here.

DALY BMS LI-ION NMC 16S 60V 40A WATERPROOF BATTERY MANAGEMENT SYSTEM

Introducing the DALY BMS Li-ion NMC 16S 60V 40A Waterproof Battery Management System – the pinnacle of advanced battery intelligence and unrivaled protection for your energy storage needs. Engineered with precision and wrapped in a robust waterproof shell, this state-of-the-art BMS Protection Board offers an extraordinary balance of performance, safety, and durability. Its 16S configuration is tailor-made to seamlessly manage and protect any 60V lithium-ion pack, ensuring each cell operates within optimum parameters. Embrace the power of a 40A current rating that supports high-capacity applications, while the NMC compatibility enhances endurance and charging efficiency. Trust DALY to safeguard your setup with an intuitive system that prevents overcharging, discharging, and short circuits, ensuring longevity and peace of mind. Step into the future of energy solutions with a BMS designed to excel in any environment, no matter how demanding. Achieve the best in class with DALY – where reliability meets innovation.

SINOTIMER SVP-916 ADJUSTABLE SELF-RESETTING OVER-VOLTAGE UNDER-VOLTAGE PROTECTOR, CURRENT: 63A

The Sinotimer SVP-916 stands out due to its impressive array of features and specifications. It is equipped with an adjustable reset function, allowing users to customize the voltage thresholds to suit specific needs. The protector automatically resets itself after a fault condition, reducing the need for manual intervention. Additionally, it supports a wide voltage range, making it versatile for various applications.

Other notable features include an LED display for real-time monitoring, a robust design to withstand harsh environments, and compliance with international safety standards. These characteristics make the Sinotimer SVP-916 a reliable choice for both residential and commercial settings.
